Estimate of land loss and 12 ft.+ flood depths for a 100-year flood under the Medium Environmental Scenario in 2067, with CPRA action. This data was originally produced by CPRA to inform the 2017 Coastal Master Plan.

Parish Scale Flood Risk and Land Loss Over Time

These bars reflect a rough estimation of improvement or decline in each category. Land Loss and Flood Risk estimations are based on map data provided by CPRA. Economy and Population estimates our understanding of expected consequences that greater land loss and flood risk will have on population movement and economic shifts.
