The first round of LA SAFE meetings kicked off the planning process. At these meetings, the project team presented data focused on land loss, flood risk, population movements, and economic change (see appendix). This information provided the groundwork for the community conversations. During these conversations, the participants discussed the goals and values that LA SAFE should pursue going forward.

The majority of the meetings centered on two small-group activities, which focused on 3 general aspects of the project: Community & Culture, Environment & Sustainability, and Economy & Jobs. The first activity asked residents to describe the changes and challenges that they have seen over the last 50 years in their communities. This activity included a map that depicted current and future land loss and population shifts between 2000 and 2010.

The second activity asked what aspects of those three categories are important to protect and preserve, and how they can be strengthened, improved, or expanded. The project team organized the feedback from this meeting into 3 categories: Strengths, Opportunities, and Challenges.

At the meeting, the residents sat at round tables. Each table group had a table host and a table scribe. The table host facilitated the conversation and helped capture the residents’ ideas. The table scribe documented the conversation.
MEETING RESULTS

The following pages illustrate the full meeting results. The graphic on the right depicts all of the ideas grouped by similarity. The project team designed the groupings using an emergent thematic coding technique. The team grouped similar ideas into sub-groups, and then arranged the sub-groups into major categories.

The size of the circles in the graphic reflects the frequency of comments within that topic. The larger circles show the most commonly discussed topics, while the smaller circles show topics discussed less often.

KEY
These circles represent ideas collected at Community Meeting 1.

1 Idea
18 Ideas

The size of the circles indicate how many people said similar things. Ideas grouped into “Subcategories” and “Major Categories” for groups of ideas are related but not the same.

Participants placed stickers on ideas that they chose to prioritize. The number of those prioritizations are shown here as line width around the circles.
# STRENGTHS

The project team transcribed all of the comments below directly from the table sheet activities at Meeting 1. Comments in bold represent the ideas that community members prioritized using sticker dots during the activity. The sizes of the subcategory circles correspond to the number of ideas within the suggestion. The subcategories are then organized under major categories, separated by dotted lines. See the key on page 18 for more information.

## TRADITIONS & CULTURES

<table>
<thead>
<tr>
<th>CULTURAL HERITAGE &amp; KNOWLEDGE</th>

</tr>
</tbody>
</table>
STRENGTHS

GOOD SCHOOLS
• Good schools.
• Great educational opportunities for all children.
• Good public schools.
• Lafitte has a better public school education.

FAMILY
• Family.
• Everyone is family.
• Family traditions that created bonds in the community.

BUSINESS & INDUSTRY
• Close to shops.
• Mississippi River and Port of New Orleans.

GROWTH & ADAPTATION
• Elmwood population growing a lot post-Katrina, a lot of outsiders coming.
• Chemical plants growing.
• Tourism has grown in some local areas to replace lost jobs.
• Fast infrastructure upgrades.

WATERWAYS & WETLANDS
• Something to do with the water.
• Proximity to water.
• Love the wetlands, marshes, and swamps, create diversity.
• Love wetlands, swamps, and alligators.

TRANSIT
• Love the new Huey P. Long bridge.
• Public transit.
• Convenience of location to enter and exit parish.

BUSINESS OPPORTUNITIES
• Handshake economy.
• Economic, environment, cultural, all come hand in hand.

ADAPTING FOR WATER
• Lifting homes.
• Choosing to live on higher land.

GROWING POPULATION & JOBS
• Nature places to sit and enjoy outdoor walks.
• Kids love the environment.
• Family park.

INFRASTRUCTURE IMPROVEMENTS
• Temperature.

NATURAL RESOURCES
• Wildlife.
• Fisheries and wildlife in our backyard.
• Fishing.
• Recreational fishing.
OPPORTUNITIES

DEVELOP NEW COMMUNITIES

- Need to build communities, not lakeside shopping center in Elmwood.
- How to attract investors for affordable houses.
- Partners with neighbor to leverage areas to grow.
- Build up rather than out.
- Prepare smaller communities north of I-10 to double population within 40 years due to population shift.
- Government should be better stewards of monies for raising homes.
- Create area that attracts young professionals to solve old housing stock.

ECONOMIC DEVELOPMENT

- Recruit new business and increase jobs.
- Another ice house in Lafitte.
- Use the bridge as a catalyst for economic development.

REMOVE BLIGHT

- Tear down dilapidated buildings.

RESTORATION AND PROTECTION

- Adapt in ways that support restoration and protection.
- Relocate landfill.
- Start with coastal restoration effects in Lafitte.
- A lot of floodgates seen in Terrebonne Parish. Bring some proactive flood projects into Jefferson.
- Oil industries canals damage lands, should have to repair.
- Invest in wetlands marsh and swamps.
- Protection levee should be built east and west to keep salt water out from Texas to Florida.

SUPPORT SEAFOOD INDUSTRY

- Make a loop in fishing economy.
- Reduce fresh water and import more seafood.
- Fishing industries.
- Seafood market in Jean Lafitte.
- Get ahold of imported shrimp impact on local price.
- More security and resilience for commercial fishing.
- More protection of area, if you protect south Jefferson you also protect upper Jefferson.
- Property protection.
- Close the passes.
- No imported seafood.
- Other generation to continue shrimping and crabbing.
- We need to support local seafood restaurants by only selling local.
- Lafitte needs more tax on imported things and other seafood these imports hurt fishermen in our area.
**DEVELOP AND DIVERSIFY ECONOMY**

- Everything grows from economy and jobs
- Help support new economies and new jobs
- Manufacturing jobs
- Maintain local businesses in coastal communities, place jobs and dollars in these areas.
- Green Jobs

- Attractive high paying jobs and providing training and or educational opportunities to residents.
- Workforce training combined with job placement.
- Restoration activities which employ and train LOCALS (70006)

**ECOTOURISM**

- Creating more seafood, culture, and environmental jobs
- Local people operating tour boats
- Eco-tourism needing regulations to protect environment.
- Water based jobs and technology

**GREEN SPACES & RAIN GARDENS**

- Green spaces that retain water.
- More rain gardens and restored wetland.
- Preserving trees.
- Green space protected.
- Maintain wildlife increase.

**IMPROVE DRAINAGE AND GREEN SPACE**

- Better water management due to flooding
- Water management
- Better flood control, specifically getting water out rather than flood
- Better drainage

**NEW INFRASTRUCTURE**

- New bridge to Barataria
- New bridge Kenner bridge from Lafitte to Barataria
- Lacking infrastructure for artistic development
- Workers ability to access workplace/ environment may allow population growth
- Electric roadways

**MORE TRANSIT OPTIONS**

- Ferry from Lafitte to Grand Isle
- More public transportation and assisted living.
- Improve mobility and transportation
- Improve transportsations

**FIX EXISTING INFRASTRUCTURE**

- Fix infrastructure to manage flood so insurance rates go down.
- Infrastructure maintenance upgrade
- Need to repair bridges
OPPORTUNITIES

IMPROVE POLITICAL TRUST AND REGULATIONS

- Recreation along Canals.
- Maintain recreational opportunities.
- Multifunctional infrastructure.
- More recreation.
- Improved water-based recreation to improve community health (70006).
- More main attractions.
- More activities for children.

- Regulatory controls of environment.
- Open line of communication in community regarding permits.
- Road home.

- Long studies ran away money and I hope this study doesn’t do that.
- Stop political miscues.
- More community involvement.

MAINTAIN INTEGRITY & PUBLIC TRUST

IMPROVE EDUCATION

- Build community knowledge and capacity.
- Educational center for wetlands studies in Jean Lafitte.
- Learn to live with the water.

- Schools with English as second language.
- Need better understanding of each others culture.

IMPROVE SCHOOLS

COASTAL EDUCATION

LANGUAGE & CULTURAL EDUCATION

DEVELOP NEW COMMUNITIES

INCREASE HOUSING & DENSITY

- Need to build communities, not lakeside shopping center in Elmwood.
- How to attract investors for affordable houses.
- Partners with neighbor to leverage areas to grow.
- Build up rather than out.
- Prepare smaller communities north of I-10 to double population within 40 years due to population shift.
- Government should be better stewards of monies for raising homes.
- Create area that attracts young professionals to solve old housing stock.

RESTORATION AND PROTECTION

SUPPORT SEAFOOD INDUSTRY

- Make a loop in fishing economy.
- Reduce fresh water and import more seafood.
- Fishing industries.
- Seafood market in Jean Lafitte.
- Get ahold of imported shrimp impact on local price.
- More security and resilience for commercial fishing.
- No imported seafood.
- Other generation to continue shrimping and crabbing.
- We need to support local seafood restaurants by only selling local.
- Lafitte needs more tax on imported things and other seafood these imports hurt fishermen in our area.
**CHALLENGES**

**LOSS OF BUSINESS AND JOBS**
- All major companies are currently leaving or have left already.
- Wal-Mart never opened even though they bought land in the last 5+ years.
- As people move to north shore/downtown they take dollars and business with them.
- Ship yard closed.
- Sears closed, Toys'r Us closed, K-Mart closed, no new industries.
- Economy declined after the storm.
- Avondale closing wasn't major but a lot of businesses in Jefferson.
- Longer commute for supplies since business moved away.
- More business outside parish.

**BUSINESSES LEAVING PARISH**
- All of income comes from the water.
- No diversification of industries.

**JOBS HAVE LEFT**
- Job opportunities have left.
- Jobs.
- Less jobs.
- Major job loss.
- Decreased earnings.
- Revolving jobs.
- Loss of jobs tied to coast/ fisheries hurt communities.

**LACK OF DIVERSIFICATION**
- Having a hard time filling jobs in the oil and gas industry.
- Employees don't return after storms.

**LACK OF SKILLED WORKERS**
- Former farmland being developed into large home properties.
- No more farming.

**LOSING FARMLAND**
- All of income comes from the water.
- No diversification of industries.
- Having a hard time filling jobs in the oil and gas industry.
- Employees don't return after storms.
- Former farmland being developed into large home properties.
- No more farming.

**HOUSING INSTABILITY**
- Takes longer to sell a house.
- Harder to sell homes.
- A lot of properties are for sale. Plenty of abandoned houses.
- A lot of abandoned homes because residents can't afford to rebuild.

**HARD TO SELL HOMES**
- More renters than home owners.
- Home owners are moving.
- More renters moving in.

**HOME OWNERSHIP DECLINING**
- Issues with housing stock.
- Not a lot of developable land for new development to entice new home owners.

**HIGH INSURANCE COST**
- Insurance needs to be deregulated.
- Lower flood insurance.

**POOR SCHOOLS**
- Infiltration of other areas in the school system.
- Failing public schools.
- Schools population increase.

**WILDLIFE CHANGE / DEATH**
- Pest increase.
- Raising water killing oak trees.
- Regulations by environment with turtles, turtles weren't there 50+ years ago.
- Water is killing fruit trees and coming up the bayou.
JEFFERSON PARISH ROUND 1 MEETING SUMMARY

CHALLENGES

POOR DEVELOPMENT AND INFRASTRUCTURE

- Lack of water management.
- Can’t go to certain places due to flooding.
- Pumps are only pumping 1” of the first hour and then 1/2” there after.
- Lack of outreach and on the ground research during flood events.
- More bad drivers.
- More people on the roads.

POOR STORM WATER MANAGEMENT

- Poorly managed growth.
- Environment is not a priority for those who made decisions in the community.
- Permits and regulations are hurting the community.
- Jefferson parish is too shortsighted with economic development.
- Failing infrastructure.

POOR DEVELOPMENT POLICY

- Residents moved because of job opportunities and to avoid flooding.
- Moved to south side for disaster related work.
- Residents leaving.
- Growth of ghost town.
- More professional people moving into Waggaman area, due to higher land area.
- Post Katrina residents left.
- Westwego used to be way more populated.
- Change of lifestyle.
- Population race and age changes.

POOR INFRASTRUCTURE

- Can’t fish for fun.
- No ducks for recreation.
- Less dining establishments of top end.
- No connection to nature, job centered.
- Most people come for recreation and not to stay.
- Visitors don’t stay long when visiting.

LACK OF VISITOR ATTRACTIONS

- Young people don’t return after college.
- Younger generations are moving out making it harder to fill jobs.
- Aging populations- lack of employees and potential employee base.
- Fear of losing neighbor due to economic challenges.

CONTINUED POPULATION LOSS

- Infiltration of other areas in the school system.
- Failing public schools
- Schools population increase.
- Pest increase.
- Raising water killing oak trees.
- Regulations by environment with turtles, turtles weren’t there 50+ years ago.
- Water is killing fruit trees and coming up the bayou.
- Issues with housing stock
- Not a lot of developable land for new development to entice new home owners.

LACK OF ATTRACTIONS AND RECREATION

- All major companies are currently leaving or have left already.
- Wal-Mart never opened even though they bought land in the last 5+ years.
- As people move to north shore/downtown they take dollars and business with them.
- Ship yard closed.
- Sears closed, Toys’r Us closed, K-Mart closed, no new industries.
- Economy declined after the storm.
- Avondale closing wasn’t major but a lot of businesses in Jefferson.
- Longer commute for supplies since business moved away.
- More business outside parish.
- Job opportunities have left.
- Jobs.
- Less Jobs
- Major job loss.
- Decreased earnings.
- Revolving jobs.
- Loss of jobs tied to coast/fisheries hurt communities.

POOR SCHOOLS

- Former farm land being developed into large home properties.
- No more farming.
- All of income comes from the water.
- No diversification of industries.
- Having a hard time filling jobs in the oil and gas industry.
- Employees don’t return after storms.

LosING FarMLAND

- Takes longer to sell a house.
- Harder to sell homes.
- A lot of properties are for sale. Plenty of abandoned houses.
- A lot of abandoned homes because residents can’t afford to rebuild.
- More renters than homeowners.
- Homeowners are moving.
- More renters moving in.
- Insurance needs to be deregulated.
- Lower flood insurance.

HARD TO DEVELOP NEW

- Issues with housing stock
- Not a lot of developable land for new development to entice new home owners.

HIGH TRAFFIC

- More people on the roads.

POOR POPULATION CHANGE

- Change of lifestyle.
- Change of lifestyle.

LACK OF SKILLED WORKERS

- Long commute for supplies since business moved away.
- Jobs.
- Less Jobs
- Major job loss.
- Decreased earnings.
- Revolving jobs.
- Loss of jobs tied to coast/fisheries hurt communities.

LACK OF DIVERSIFICATION

- Fear of losing neighbor due to economic challenges.

YOUTHS MOVING AWAY

- Aging populations- lack of employees and potential employee base.

HARD TO SELL

- Fear of losing neighbor due to economic challenges.
CHALLENGES

INCREASED COST OF LIVING & INSURANCE

- Flooding Insurance
- Too expensive for insurance.
- Cost of home owners insurance increased greatly
- Cost of insurance.
- Building expensive homes.
- Higher flood insurance= more renters.
- Insurance companies are hurting locals because of their high prices form high water levels.

LAND LOSS AND WATER CHANGES

- Fishing ponds becoming lakes
- Greasier soil, Island getting smaller.
- Large lots, close to rivers.
- Marsh disappearing.
- Land loss.
- Climate change.
- Evasion of wetlands

SEAFOOD INDUSTRY

- Fishing not as good
- Fisherman need changes to water for fisherman shrimping as a way of life.
- Federal projects dating back to the 1930’s have impacted fisheries
- Economically affected by the water changes hard to catch shrimp, soft shell crabs.

INCREASED FLOODING & FLOOD RISK

- Home is flooding more easily since 1985
- Recent flooding.
- Flooding
- Rising water levels.
- Tide rise more flooding.
- Where is this water coming form and what is in the water?

INCREASING COSTS OF LIVING & INSURANCE

- Extra maintenance as a result of having elevated houses.
- Higher insurance rates.
- Cost of living on higher land/ neighborhoods that don’t flood.
- Cost of building more than other parts of the country.

CONTINUED LAND & WETLAND LOSS

- Too much fresh water is coming in.
- The water changes quality.

CHANGES TO WATER

- People are selling out from fish and shrimping industry
- Have pumping station is polluting fishing waters
- Coastline changes and diversions have changed fisheries.
CONTINUED SUBSIDENCE

- Every 5-6 months pipes are getting done.
- Cracking foundation.
- The lower it sinks the more difficult it is to fix things.
- Front yard sinking.
- Backyard sidewalk and driveway sinking.
- Homes have been built more in Waggaman, LA on slab
- Every 5-6 months pipes are getting done.
- Over regulation with erosion.
- Home owners are not able to protect their own land because its against regulation.
- Cement is crumbling, drainage issues.
- Property value is going down.

CONTINUED SUBSIDENCE

- No subsidence.
- Ground constantly sinking.
- Subsidence issues.
- Roads and sidewalks are getting worse, cracks and holes not leveled.

HOME DAMAGE/CHANGES

- All major companies are currently leaving or have left already.
- Wal-Mart never opened even though they bought land in the last 5+ years.
- As people move to north shore/downtown they take dollars and business with them.
- Ship yard closed.
- Sears closed, Toys'r Us closed, K-Mart closed, no new industries.
- Economy declined after the storm.
- Avondale closing wasn't major but alot of businesses in Jefferson.
- Longer commute for supplies since business moved away.
- More business outside parish.
- Job opportunities have left.

HARD TO DEVELOP NEW

- Jobs.
- Less Jobs
- Major job loss.
- Decreased earnings.
- Revolving jobs.
- Loss of jobs tied to coast/fisheries hurt communities.
