

Hosted by Louisiana Office of Community Development and Foundation for Louisiana

Vote for what matters.

This is it! Now is your chance to offer your preference on the final product of our collaboration together, learn more about what is next for your parish's adaptation plan and celebrate everyone's hard work with music, art, food and other staples of your parish's diverse culture.

During our fifth and final round of meetings, you will have the opportunity to rank your favorite projects that have come as a result of our work together. Preferences provided by parish residents will be a key component in determining which pilot project or program will be implemented in your parish.

YOUR INPUT COUNTS
