NORTHSHORE LAUNCHPAD

Alternative Energy Wind and Solar

Coastal Restoration

Construction

Digital Manufacturing e.g. 3D/computerized modeling

This proposed project is modeled after Propeller, a business incubator in New Orleans that offers a training program for accelerating new business development, as well as office space and amenities for small-business owners. The St. Tammany incubator will support businesses that address: alternative energy, coastal restoration, construction, and digital manufacturing.

Accelerator program to help grow new busineses

Private meeting rooms

Communal work area

Collaborative work stations

Technology center & fabrication space

One-on-one mentoring & career counseling

PROPOSAL

Economic resilience is a cornerstone of LA SAFE. A business incubator will help launch new businesses, diversifying the economy with industries that will strengthen the region in the future. As part of the accelerator program, entrepreneurs will have access to a mentor in their field to help guide them through the program as they start their business. The incubator provides a coworking space with access to shared office equipment and a communal kitchen, and a makerspace for new fabrication and creative projects that make use of tools such as laser cutters, CNC machines and 3D printers.

Key Info

LA SAFE Investment \$4 million

Estimated Project Cost \$2 million for accelerator

program development; \$2 million for facility construction or renovation

Location TBD

Partners Propeller

Propeller, Northshore Technical Community College (NTCC), St. Tammany Parish

overnment

Community Benefits

Incentivizes the development of new firms and emergent technologies in stormwater management.

The development of this incubator will use smart building strategies that respond to the environment and mitigate stormwater on site.

The accelerator promotes small business development and economic diversity, creating jobs in growing industrial sectors.
