The first round of LA SAFE meetings kicked off the planning process. At these meetings, the project team presented data focused on land loss, flood risk, population movements, and economic change (see appendix). This information provided the groundwork for the community conversations. During these conversations, the participants discussed the goals and values that LA SAFE should pursue going forward.

The majority of the meetings centered on two small-group activities, which focused on 3 general aspects of the project: Community & Culture, Environment & Sustainability, and Economy & Jobs. The first activity asked residents to describe the changes and challenges that they have seen over the last 50 years in their communities. This activity included a map that depicted current and future land loss and population shifts between 2000 and 2010.

The second activity asked what aspects of those three categories are important to protect and preserve, and how they can be strengthened, improved, or expanded. The project team organized the feedback from this meeting into 3 categories: Strengths, Opportunities, and Challenges.

At the meeting, the residents sat at round tables. Each table group had a table host and a table scribe. The table host facilitated the conversation and helped capture the residents’ ideas. The table scribe documented the conversation.
MEETING RESULTS

The following pages illustrate the full meeting results. The graphic on the right depicts all of the ideas grouped by similarity. The project team designed the groupings using an emergent thematic coding technique. The team grouped similar ideas into sub-groups, and then arranged the sub-groups into major categories.

The size of the circles in the graphic reflects the frequency of comments within that topic. The larger circles show the most commonly discussed topics, while the smaller circles show topics discussed less often.
The project team transcribed all of the comments below directly from the table sheet activities at Meeting 1. Comments in bold represent the ideas that community members prioritized using sticker dots during the activity. The sizes of the subcategory circles correspond to the number of ideas within the suggestion. The subcategories are then organized under major categories, separated by dotted lines. See the key on page 18 for more information.

STRENGTHS

GOOD EDUCATION RESOURCES.
- Magnolia trees wellness center teaches health, water aerobics.
- Nicholls Thibodaux regional. Nicholls state university.
- I like to think the school system has invented in a technical school system.
- Quality higher education.

OUTDOOR RECREATION.
- Fishing.
- Dinner and for fun. Loved wildflowers on the bayou side.
- Being the sportsman’s paradise, there is no place like this region in the country.
- Hunting, fishing, seafood camping.
- Love the accessibility of fresh seafoods.
- Love recreation fishing here and that they can take their family and friends here.
- Keep fishing.
- Hunting and Fishing

TRADITIONS AND CULTURE.
- Things that are valuable are: Living with the environment and great abundance of recreational areas.
- Culture is tied to the natural resources like no other place in American food, architecture.
- Identity of place “drinking bayou h2O”
- Culture/ heritage (southern hospitality)
- Cajun culture food, family, god.

FESTIVALS & EVENTS
- Things that are valuable are less transient in society.
- This is the culture that they’re accustomed to.
- Family culture in south Lafourche area.
- The food culture here is good. Its fresh.
- People, I like the culture awareness programs that some of schools participate and plan for our kids.
- I like from the community perspective, own festivals are wonderful.
- Food-Local family lite festivals
- Festivals and fairs.
- Happy events- fairs throughout parish

- Festivals Cajun dancing culture
- Thibodeauxville fair in November (gumbo, jambalaya)
- Fireman’s fair and every may for community churches.

LAFOURCHE PARISH ROUND 1 MEETING SUMMARY
STRENGTHS

WILDLIFE AND NATURE

- Beauty of the area because of cypress trees and birding.
- Live oak tour.
- Whole estuary gradient—All the habitat types, fisheries, swamp, marsh, beach.

WATERWAYS AND WETLANDS

- Protect our bayou.
- Availability of fresh water.

GOOD SCHOOLS

- Good schools.

FAMILY

- Everyone is family.

BUSINESS AND INDUSTRY

- Close to shops.
- Mississippi River and Port of New Orleans.
- Handshake economy.

WATERWAYS AND WETLANDS

- Protección de los humedales.
OPPORTUNITIES

DIVERSIFY & DEVELOP ECONOMY

- Diversify environmental economy.
- Build diversity in the workforce—i.e. paper mill in Valentine open.
- We need to diversify industries that would create more job opportunities.
- The most important thing to protect is the economic diversity of South LA.
- Coastal restoration to protect infrastructure which also drives growth in water sector.
- Attract more industries associated with technology.
- Internet/ electric/ groceries—everything is monopolized.
- **Explore and develop green energy (wind farms).**

- Hasn’t flooded too badly in Thibodaux.
- Population increase in central LaFourche and increase in north LaFourche.
- Revitalize downtown Thibodaux.
- Maintain farm land, pursue main goal.
- Develop areas maintain farm land.
- Smart business economic development and support. **Expand jobs.**
- Need economy, environment, and infrastructure

NEW JOBS & OPPORTUNITIES

- Seafood industry, jobs to attract young people, more engaged leadership.
- Maintain and expand job opportunities 70374.
- Create more job security/livelihood for locals.
- Opportunities for our economy to support national emergency security through supporting oil/gas development in the gulf of Mexico.

EXPAND TOURISM

- New industries manufacturing increase tourism aquaculture.

INCENTIVIZE ENTREPRENEURSHIP

- Tax breaks for business owners.

PROMOTE LOCAL SEAFOOD

- Create more commercial docking.
- Advertisement for LA seafood.
- Invest more in the seafood business in Louisiana/ less imports from other countries- create more job security/livelihood for locals.
- I love seafood and the ability to go fresh or salt water fishing.
- Protection of seafood industries.

REGULATIONS & POLICY

- A sustainable flood insurance program.
- The levees are recognized.
- Federal recognition of this process to achieve the plan.

MISC.

- Usage of resources.
- Recycle and reuse investments.
- Retain popularity in region QOC.
OPPORTUNITIES

IMPROVE EDUCATION & JOB TRAINING

- Education. More outreach. Involving industry in education.
- Support across the workforce for job training and skill set building even in industries experiencing downturn.
- Train the non-professional workers skills about managing and finances.
- Workforce development through community, college involvement and funding.
- Workforce funding.

COASTAL EDUCATION PROGRAMS

- Goal how to help people understand levee system education.
- Better Education for our kids in our situation so they can make good decisions in the future.
- Teach flood survival skills to families who have no choice but to stay

INVEST IN SCHOOLS

- Investing in public schools improvement to Raceland upper.
- Support our college!
- Education of the Parish young and old.
- SLHS is now a 4a high school

IMPROVE INFRASTRUCTURE

- Infrastructure, road and bridges
- Transportation evenings and weekends.
- Better transportation and highways.
- Transporations oils complete elevated highway to port Fourchon.
- Bayou Lafourche transportation.
- Better infrastructure (transportation) and safer!!
- Highest ranked thing in Lafourche 20 yr. plan was public transportation system.
- Get transportation throughout parish.

IMPROVE STORMWATER DRAINAGE

- Sewer and (open) drainage system needs to be set in place.
- Better streets, better drainage convertible pipes.

IMPROVE TRANSPORTATION INFRASTRUCTURE

PLAN & BUILD FOR FUTURE CONDITIONS

- Lifted housing is the goal.
- Homes have to be elevated.
- Assist with home elevation.
- Using gravel and rocks to build land up so we can be on higher ground.
- Elevated homes

DISASTER PREPAREDNESS PLANNING

- Where would I go if my house goes down.
OPPORTUNITIES

PRESERVE COMMUNITY STABILITY & Q.O.L.

- Give our kids hope that our government is here to help preserve these things that are important to our way of life.
- Increase in quality of life.
- Get Lafourche to realize it is its one parish. As goes one area, so goes the whole parish.
- Oil and gas should be required to put more investments into environment, education, communities and culture.

PROTECTION & RESTORATION.

- Stop salt water intrusion.
- Hold the powers at hand accountable for the work they do to preserve and restore this region.
- Rock off the coast. Sediment in the marsh to protect and build marsh land.
- Fresh water diversion is a major factor to most discussions but not what is really wanted.
- Want to see the master plan projects along lower bayou Lafourche ridge.

- We need to complete the Morquza Levee system on the east side of bayou Lafourche, to give central and north Lafourche comprehensive flood protection.
- Make sure my family is safe.
- Needs to invest in better flood gates.

- French culture reinvigorated.
- Clean and recycle.

- Fresh water protection.
- Bayou Lafourche project completions.
- Rocks are needed vs. sand

RECREATION & YOUTH PROGRAMS

- Invest to recreation fishing in Louisiana charter boats, advertising on a national level.
- Make wellness center more affordable for all. A youth center
- Recreation and transportation.
- Regional bike trails, water trails.
CHALLENGES

POPULATION LOSS/MOVEMENT

- Population shift has migrated to the northern part of the parish. Shifting home property values.
- Used to go down to golden meadows and family lived in LaRose, Mostly moving northward, Everyone is leaving grand isle
- Loss of family tides due to population shift.
- Economy has affected population shifts more than anything.
- Population is moving to higher ground.
- More people moving in neighborhoods
- Increase 70301. Decrease down by the bayou.
- Population shifting north- Development driving flood concerns
- People I used to know is not there anymore, Family members had to leave
- 10th ward population increased, Experiencing growth,
- Population Decrease in South Lafourche, Old population dying
- Shift from south Lafourche to north Lafourche. Shift to above the intercoastal for hurricane protections
- Shifts in population strain resources in area of population growth

MOVING NORTH

- Kids moving away because they feel this is a losing proposition.
- Young adults are moving. Quite a few retired persons moving.
- Family members lost home
- 2002 was the turning point losing students

STREET FLOODING

- Bayou is getting wider and not as narrow as it used to be,
- Areas that became tidal that were not historically tidal.
- Tidal issues.
- When its not raining it floods.
- Flooding In the streets, Due to flooding friends had to move,
- Flooding issues. Tides drainage,
- Bayou is shifting. Drainage, flooding. Erosion, marsh, tidal

CONTINUED SUBSIDENCE & HOME DAMAGE

- Schools, Slab sinking
- Coastal roads move often. Require upgrades to infrastructure.
- Land sinking and having to spend more money to make repairs
CHALLENGES

DECLINING HOME VALUES & TAX BASE

- Financing and flood insurance. Flood insurance rates
- **There is so much land but because it is a flood zone insurances are high.**
- Flood insurance increase,
- Flood insurance/worried about flooding,
- Flood insurance rates are going up.
- Permits, cost of living here. Insurance
- Less people equals less business, no tax base

POOR WATER QUALITY

- Bayou Lafourche drinking water.

LOSS OF BUSINESS & INDUSTRY

- Threat for business.
- Oil and gas industry
- Less jobs in town Thibodaux, housing more expensive.
- Companies are choosing to leave
- Oyster factory and shrimp factory shut down a lot of industries
- Has to travel to Thibodaux to shop.

DECLINING HOME VALUES & DEVELOPMENT

- Real estate market is out of whack.

CONTINUED LAND LOSS & DYING ECOSYSTEMS

- Main change-- seabirds in town Leeville.
- Roads and roadways have changed, vegetation increase, oranges are no longer growing in grand isle, hot water, rain, water on street but pumps are removing h2o, height of h2o in bayou has increased, salt h2o intrusion
- Flatter land and high levees are no longer there
- Disappearing land and roads collapse
- Salt water
- Changes in area where people fish

WILDLIFE MOVEMENT/DEATH

- Salt Water intrusion. Observed subsidence and erosion of marsh.

LAND LOSS

- High insurance costs
- Taxes

HARD TO SELL

- Houses are hard to sell.
- A lot of properties are for sale. Plenty of abandoned houses.
- A lot of abandoned homes because residents can’t afford to rebuild
- More renters than home owners.
- Home owners are moving.
- More renters moving in.
- Insurance needs to be deregulated.
- Lower flood insurance.

POOR SCHOOLS

- Infiltration of other areas in the school system.
- Failing public schools
- Schools population increase.

WILDLIFE CHANGE/DEATH

- Pest increase.
- Raising water killing oak trees.
- Regulations by environment with turtles, turtles weren’t there 50+ years ago.
- Water is killing fruit trees and coming up the bayou
The appendix follows this page. It includes maps and graphs shown during the first Lafourche Parish LA SAFE meeting. The appendix illustrates land loss, flood risk, population shifts, and economic activity in the parish. Larger examples of the table sheets used at the meeting follow the maps and graphs.

WHAT DOES CHANGE MEAN TO YOU?

ACTIVITY INSTRUCTIONS:
1. Take a closer look at this map that shows land change and population shifts.
2. Answer the questions below.
3. Draw on the map to show where you have seen these changes.

ENVIRONMENT How have changes to the environment affected you?

POPULATION SHIFTS How have changes in the population affected you?

ECONOMIC CHANGE How have economic changes in the Parish affected you?

How have economic changes in the Parish affected you?
ADAPTATION GOALS

WHAT DO YOU VALUE?
WHAT ARE OUR FUTURE GOALS?

ECONOMY & JOBS
- Help support new and existing businesses
- Increase workforce development
- Improve transportation

COMMUNITY & CULTURE
- Build community knowledge and capacity
- Maintain quality of life
- Improve mobility and transportation

ENIRONMENT & SUSTAINABILITY
- Habitat areas for growth and expansion
- Reduce economic and social risk
- Protect lower-risk areas for population growth

HEALTH, EDUCATION, ORGANIZATIONS, EVENTS, FOOD, SERVICES
- Preserve wildlife, physical planning, water management, preservation
- Maintain quality of life
- Prepare lower-risk areas for population growth

WHAT ARE OUR FUTURE GOALS?
- Prepare lower-risk areas for population growth
- Help support new and existing businesses
- Improve transportation

WHAT DO YOU VALUE?
- Reduce economic and social risk
- Protect lower-risk areas for population growth
- Maintain quality of life

Tell us what adaptation goals are most important to you.

The outer circle is for you to list what you value in the Parish.
The inner circle is for you to list what you think future goals should be.

1. Write your ideas on Post-it notes and place them on the sheet. Include your zip code on your ideas.
2. As a group, choose your top 10 favorite ideas, and place stickers on them.
